A Word From the Market:

When you shop at the Market you have the unique opportunity to buy and learn directly from the farmer, becoming a part of the Market's "Meet the Producer" tradition. Choose from fresh, locally-grown produce, often picked just that morning, ensuring quality and freshness. Plus, a Farmers' Market is just good fun! The McCall open-air market benefits local non-profit groups and provides a convenient and inexpensive place for the farmer to sell his/her produce directly to the consumer. The consumer benefits by being able to buy truly fresh quality produce at a reasonable price. We encourage new farmers to join us!
