## A Word From the Market:

Our association is a non-profit, grassroots organization that is run by the members. You and your family and friends will have a delightful experience shopping in our outdoor marketplace under the trees. No two markets are ever the same. There is an ever changing variety of fresh, locally grown produce and other garden related items to be found each market day. Select from the freshest produce available, often picked the very day of the market. Vine and tree ripened fruits are the juiciest and sweetest you'll find anywhere. Buying directly from the growers enables you to ask questions, trade, dicker, share gardening tips, or perhaps discuss the weather. Just try and do that at the supermarket.

## Selling at Market:

- Application required to sell

## About the Market:

- Established 1990
- Approximately 46 vendors: 75% produce / 25% craft
- 9 Certified Organic vendors
- Juried crafts
